ART UNIT 2748

Art Unit: 2748

Part III Reasons For Allowance

1. The terminal disclaimer filed on 5/2/2000 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent #5,815,551 has been reviewed and is accepted. The terminal disclaimer has been recorded.

2. The following is an Examiner's Statement of Reasons for Allowance: Upon extensive review of the enormous collection of prior art and in consideration of the remarks of the response filed 5/2/2000, the examiner considers the claimed subject matter allowable as the prior art of record does not clearly teach or suggest inter alia the use of the dialed number data (DNIS) to select from among a plurality of distinct operating formats. The Szlam reference relied on does not suggest to use different formats as described or claimed in the present invention but merely suggests use of different introductory messages based on incoming or outgoing call, no clear use of any dialed number is determined to be used therein. The prior art Kraus as previously relied on does not teach to select different operating formats based on the DNIS. The relied on Moosemiller reference suggests use of called number to select appropriate scripts to utilize in an automated voice response system but does not clearly suggest use of such system with interacting operator terminal as claimed and therefore is not considered appropriate art to combine with the Szlam reference as previously relied on.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott L. Weaver whose telephone number is (703) 308-6974.
